

OSEDET Token Whitepaper

OSEDET (Open Sky Exchange Dynamic Encrypted Token) is a next-generation BEP-20 utility token deployed on the Binance Smart Chain (BSC). Designed to power the SkyDash decentralized finance ecosystem, OSEDET combines dynamic tokenomics, Chainlink-powered price feeds, secure staking, and upgradeable smart contract architecture to deliver a robust and scalable DeFi experience.

Vision

To create a highly secure, dynamic, and interoperable utility token that facilitates fair value exchange, staking rewards, and cross-platform integrations within the SkyDash ecosystem and beyond.

Token Details

Token Name: OSEDET

Symbol: OSEDET

Network: Binance Smart Chain (BSC)

Standard: BEP-20

Decimals: 18

Max Supply: 7,000,000,000 OSEDET

Contract: 0xYourTokenAddressHere

Key Features

- Dynamic Exchange Rate via Chainlink
- Upgradeable Proxy Pattern
- Secure Staking with Lock Period

- Admin Controls with Timelock Capability (Planned)
- Audit-Ready & Transparent

Token Utility

- Staking Rewards
- Exchange Medium
- Fee Distribution
- Governance (Planned)

Roadmap

Q1 2025 - Token deployment & staking contract live

Q2 2025 - Trust Wallet listing, BscScan update

Q3 2025 - Launch SkyDash Web3 app

Q4 2025 - Add DAO-based governance + cross-chain bridge

Security Measures

- Reentrancy Guards on all state-changing functions
- Blacklisting of malicious actors
- Upgradeable logic with transparent upgrade process
- Chainlink Oracles for verified pricing
